THE DONATTI TROUPS .- The animal wonders at Houston Hall attracted a large crowd there last night. The seats were all taken up, and a portion of the chairs were made to do double duty. It was what is called a "jam." We do not believe a better pleased audience ever congregated within the walls of Houston Hall; we feel sure that no other audience ever gave more decided exhibitions of satisfaction. And right here we will say that the performance exceeded all that we had been told about it; in all its apitments it was unacceptionable; it was wonderful, charming. There was not the least bad taste exhibited by the animals-none of that disgusting monkeyism of the manageries. No human performers ever deported themselves with more decorum. The feats performed by the monkeys and dogs were truly pleasing and wonderful, exceeding by far anything we ever conceived could be done by those clever animals. Sig. Donetti has succeeded in his effortato train and educate the monkeys, dogs, &c., and he af-fords the public a vast deal of amusement. Go to-night and see the astonishing "critters," and don't forget to take the children along.
